# **FUND UPDATE**

# *Ports Retirement Plan Balanced Fund* for the year ended 31 March 2023

This fund update was first made publicly available effective 30 June 2023.

# WHAT IS THE PURPOSE OF THIS UPDATE?

This document tells you how the fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Ports Retirement Trustee Limited prepared this update in accordance with the Financial Markets Conduct Act 2013.

This information is not audited and may be updated.

### **DESCRIPTION OF THIS FUND**

This is the default fund for all active members. The fund has a diversified investment strategy with a broadly balanced strategic asset allocation between growth and income assets. The fund's aim is to achieve a return (after tax at the highest PIR and investment expenses) of 1.5% per annum above inflation - as measured by the consumers price index - over rolling 5-10 year periods.

| Total value of the fund         | \$74,570,606 |
|---------------------------------|--------------|
| Number of investors in the fund | 524          |
| The date the fund started       | 1 April 1985 |

### WHAT ARE THE RISKS OF INVESTING?

Risk indicator for the Ports Retirement Plan Balanced Fund:

|              |                             | incluci i iuni i | Juluniccu i u | na.                                     |                      |   |   |
|--------------|-----------------------------|------------------|---------------|---|----------------------|---|---|
|              | ← Potentially lower returns |                  |               | Potentially higher returns $ ightarrow$ |                      |   |   |
|              |                             |                  |               | ٧                                       |                      |   |   |
|              | 1                           | 2                | 3             | 4                                       | 5                    | 6 | 7 |
|              |                             |                  |               | ٨                                       |                      |   |   |
| ← Lower risk |                             |                  |               | Highe                                   | er risk $ ightarrow$ |   |   |

The risk indicator for the Ports Retirement Plan Balanced Fund is 4. The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at: <u>https://sorted.org.nz/tools/investor-kickstarter</u>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2023. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Please see the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund. Refer to <u>https://portsretirement.org.nz/</u>.

### HOW HAS THE FUND PERFORMED?

|   | Average over past five | Past year |
|---|------------------------|-----------|
|   | years                  |           |
| Annual return                                 | 3.35%                  | -5.25%    |
| (after deductions for charges and tax)        |                        |           |
| Annual return                                 | 3.56%                  | -6.09%    |
| (after deductions for charges but before tax) |                        |           |
| Market index annual return                    | 4.65%                  | -3.60%    |
| (reflects no deduction for charges and tax)   |                        |           |

The market index return is the strategic asset allocation weighted benchmark index return, where the benchmark indices are defined in the Statement of Investment Policy and Objectives. Additional information about the market index is available on the scheme register at: <u>https://disclose-register.companiesoffice.govt.nz/</u> (search for Ports Retirement Plan).

### **ANNUAL RETURN GRAPH**

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2023.

Important: This does not tell you how the fund will perform in the future.

The returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### WHAT FEES ARE INVESTORS CHARGED?

Investors in the Ports Retirement Plan Balanced Fund pay fund charges. In the year to 31 March 2023 these were:

|   | % of net asset value       |
|---|----------------------------|
| TOTAL FUND CHARGES                          | 0.81%                      |
| Which are made up of:                       |                            |
| TOTAL MANAGEMENT AND ADMINISTRATION CHARGES | 0.81%                      |
| Including:                                  |                            |
| Manager's basic fee                         | 0.81%                      |
| Other management and administration charges | 0.00%                      |
| TOTAL PERFORMANCE BASED FEES                | 0.00%                      |
|   | Dollar amount per investor |
| OTHER CHARGES                               | \$60                       |

Small differences in fees and charges can have a big impact on your investment over the long term.

#### **EXAMPLE OF HOW THIS APPLIES TO AN INVESTOR**

Michael had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Michael received a return after fund charges were deducted of -\$525 (that is -5.25% of his initial \$10,000). Other charges of \$60 were deducted. This gives Michael a total return after tax of -\$585 for the year.

| 5  | Nikko Global Bond Fund                             | 9.9%                    | International fixed interest | NZ      |                                     |
| 6  | Harbour Australasian Equity Fund                   | 7.1%                    | Australasian equities        | NZ      |                                     |
| 7  | Macquarie Global Listed Infrastructure Fund        | 7.0%                    | Other                        | NZ      |                                     |
| 8  | Macquarie Global Property Securities Fund          | 6.1%                    | Listed property              | NZ      |                                     |
| 9  | Nikko Wholesale Multi-Strategy Fund                | 6.1%                    | Other                        | NZ      |                                     |
| 10 | ANZ Wholesale Australian Share Fund                | 4.6%                    | Australasian equities        | NZ      |                                     |

The top 10 investments make up 97.6% of the fund.

Refer to the Statement of Investment Policy and Objectives for more information which is available from: <u>https://www.disclose-register.companiesoffice.govt.nz/</u>.

#### **Currency hedging**

International equities are managed on an active basis and are 50% hedged (net of tax for a member taxed at the highest PIR) to the New Zealand dollar. The allowable exposure range is 30% to 70% depending on the fund manager's view.

Australian equities are managed on an active basis with a target of 0% hedging and an exposure range of 30% to 70% (before tax) depending on the fund manager's view.

The following asset classes are 100% hedged to the New Zealand dollar unless otherwise agreed by the Trustee:

- International listed property
- International listed infrastructure
- Alternative income assets
- International fixed interest.

#### **KEY PERSONNEL**
