

ANNUAL REPORT TO MEMBERS

and

SUMMARY FINANCIAL STATEMENTS

for the

PORTS RETIREMENT PLAN

Year ended 31 March 2020

Introduction

On behalf of the Directors of Ports Retirement Trustee Limited, (the Trustee) I present the Annual Report and Summary Financial Statements for the Ports Retirement Plan, (the Plan) for the year ended 31 March 2020.

HIGHLIGHTS OF THE YEAR

The Plan's investment performance was weak for the March 2020 year. The before tax investment return (after investment expenses but before all other expenses and insurance costs) was -4.6% for the Balanced Fund. The newly introduced Conservative Fund has now existed for one year and the return on the same basis was +1.9%.

During their regular quarterly meetings, the Directors continued to keep a focus on the Plan's investment performance. While it is never pleasant to see a decrease in value, the Balanced Fund's return compares well in the wake of the extreme negative market environment. The longer term performance continues to be strong and the Directors remain confident the investment strategy remains robust and appropriate to meet the retirement needs of members. Members were kept regularly informed of the Plan's investment performance through the newsletters.

This is the fourth Annual Report prepared under the requirements of the Financial Markets Conduct Act 2013 (FMCA) and you are reminded of the change in headings and content required under this new legislation that differs from what you have seen previously. The sections headed *Details of Plan, Information on Contributions and Plan Participants, Changes Relating to the Plan, Other Information for Particular Types of Managed Funds, Changes to Persons Involved in the Plan, How to Find Further Information and Contact Details and Complaints are all required by the FMCA to be included in the order shown (and their content reflects the new legislative requirements).*

Returns to Members

Investment markets were positive for much of the year but plummeted through February 2020 and much of March in reaction to COVID-19 and the widespread economic shutdowns. The year ended 31 March 2020 saw global share markets fall 9.7%, although thanks to a falling New Zealand dollar they rose 3.1% from the perspective of unhedged New Zealand investors. While New Zealand shares achieved a small positive return of 0.4%, Australian markets were deeply negative with a return of -15.2%. Bond portfolios had a relatively good year thanks to the downward trend in interest rates; the market returns were 4.7% and 6.0% for domestic and global bonds respectively. (Bond prices rise as interest rates fall.)

As mentioned above, the Balanced Fund's investment return for the year gave members an equivalent gross return (after investment expenses but before all other expenses and insurance costs) of -4.6% before tax. The equivalent return for the Conservative Fund was +1.9%. The Balanced Fund return before all other expenses and insurance costs but after tax was -4.5% at a prescribed investor rate (PIR) of 28% and -4.5% at a PIR of 17.5%. The Conservative Fund return before all other expenses and insurance costs but after tax was 1.1% at a prescribed investor rate (PIR) of 28% and 1.4% at a PIR of 17.5%.

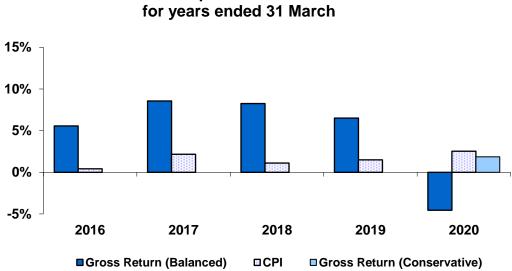

The details of other expenses, insurance costs (when applicable) and tax are set out in each member's yearend benefit statement. Due to the structure of those other expenses and insurance costs, and the complexity of the tax allocation process, it is not possible to advise in this Annual Report the crediting rate or rates applied to members' balances after expenses, costs and tax as this percentage rate differs for each individual member.

Over the five years ended 31 March 2020, the average annual pre-tax return for the Balanced Fund (as described above) was 4.9% against the annual average rate of inflation of 1.5%, so the average annual pre-tax real return over that period was 3.4%.

Each year we look at the total expenses charged to members as a proportion of total assets and compare this to the same ratio in the balanced funds provided by all KiwiSaver Schemes. It is pleasing to report that the Plan's expense ratio remains competitive with the average expense ratio for balanced funds in KiwiSaver.

The graph below compares the pre-tax returns achieved by the Plan with inflation over the last five years.

INVESTMENT REVIEW

Investment markets were positive for much of the year but plummeted through February 2020 and much of March in reaction to COVID-19 and the widespread economic shutdowns.

Until February, the March 2020 year was shaping up to be a strong year for equity markets. While news around trade tensions between China and the USA featured heavily, especially in the earlier parts of the year, by the end of January 2020 the return from Australasian markets was approaching 20% with other developed markets lagging only a little behind.

Central banks across the world have taken actions that have resulted in lower interest rates, providing healthy capital gains from fixed interest sectors. (Bond prices rise as interest rates fall.)

However, in February 2020 investors' good fortune very rapidly began to unravel.

As governments around the world ramped up their response to contain COVID-19 and mitigate the impact on their health systems, we saw widespread shutdowns of economies and a slowdown in economic activity not seen since the global financial crisis. The result was a severe decline in equity prices over the weeks that followed: the Trans-Tasman return for the year was -9.8% while the global return was -6.8%. The 50% foreign currency exposure within global equities helped significantly as the New Zealand dollar fell in value.

Real assets were not immune and global property and infrastructure (both 100% hedged) saw returns of -16.0% and -10.2% respectively.

A surge of decisive quantitative easing measures from central banks lead to an eventual decline in interest rates and ultimately fixed interest sectors delivered respectable results for the year. The return for domestic bonds was 4.7% and the Plan's two overseas managers returned 4.5% and 5.0%. Repeated cuts to the Official Cash Rate has left the cash return low at 1.9%.

INVESTMENT SECTOR ALLOCATIONS

As at 31 March 2020, the assets of the Plan were invested as shown in the table below, with the prior year proportions being shown for comparison.

STATEMENT OF INVESTMENT POLICY AND OBJECTIVES (SIPO)

The Trustee has duties under the trust deed and at law to ensure that the assets of the Plan are properly managed.

The Plan has a wide range of assets which should support a sustainable return to members over time.

A key objective in the SIPO is to outperform the CPI by 2.0% on a rolling three year basis. *The Plan has* successfully achieved its out performance targets in the last three years and indeed over the last five years.

The SIPO benchmark and strategic asset allocation ranges as at 31 March 2019 are shown in the table below:

APPOINTED INVESTMENT MANAGERS

The Plan has four investment managers. Based on actual asset allocations, as at the end of the year the allocation to each manager was as follows:

AMP Capital Investors New Zealand Limited managed 24% of Plan assets, comprising Cash, New Zealand Bonds, Global Property and Global Infrastructure.

ANZ New Zealand Investments Limited managed 47% of Plan assets, split between Global Equities, Australian Equities and Global Bonds.

Nikko Asset Management New Zealand Limited managed 21% of Plan assets, split between Growth and Income-based Alternative Assets and Global Bonds.

Harbour Asset Management Limited managed 8% of Plan, assets in Australasian Equities.

There were no new manager appointments this year.

The Trustee regularly meets with each investment manager and actively monitors performance in conjunction with the Investment Consultant.

THE YEAR AHEAD

Global economies are still reeling as many workers and businesses struggle to return to normal while whole industries are still at a standstill. The world is expected to experience a decline in economic activity not seen since the 1930s. The course of the virus, the extent to which Government intervention will continue and the behaviour of consumers and investors are still great unknowns. As a result, there is still considerable uncertainty about what the economic landscape will look like when countries emerge from their containment measures.

The New Zealand Treasury has forecast several scenarios depending on how events play out. Under the central scenario, it expects the local economy to contract through 2020 and 2021. Inflation is expected to be low for the 2020 year at 0.8% although they predict it will return to within the lower half of the Reserve Bank's 1%-3% targeted band in subsequent years.

The Plan continues to operate to a well-diversified investment mix in order to capture the best returns without taking on undue risk. The Plan's Investment Consultant considers that at present the Plan's chosen managers provide a suitable mix for the management of the Plan's assets. The managers are well aware of the issues that face investment markets and have sufficient abilities to manage the funds accordingly.

Compared to other similar schemes the Plan continues to operate to a more conservative strategy with slightly lower exposure to equity markets and more diversifiers in its line-up in the form of alternative asset classes.

Details of Plan

The scheme name is the Ports Retirement Plan (the Plan). The Plan is registered as a restricted workplace savings scheme.

The manager is the Ports Retirement Trustee Limited, whose Directors are named on page 12. The product disclosure statement for the Plan is dated 12 September 2019 and it remains open for applications. A fund update for the Plan was produced as at 31 March 2020.

The financial statements of the Plan as at 31 March 2020, and the auditor's report on those financial statements, have been lodged with the Registrar of Financial Service Providers and are available electronically by visiting companiesoffice.govt.nz/disclose, selecting search schemes and entering the Plan name.

Relationship property sharing order

Due to the resignation of the Chairman, David Stevens, the Trust Deed was amended on 20 February 2020 to confirm the resignation and the election of a current Director, Paul Drummond as an interim Chairperson.

The Trust Deed was also amended on 12 September 2019 to allow First Home Withdrawal Benefits and a clarification of the Qualifying/Deferred member definition.

A replacement Product Disclosure Statement (PDS) was lodged on 12 September 2019. This reflects the first home withdrawal option that became available to members effective on and after 12 September 2019.

A replacement Other Material Information (OMI) was also lodged on 12 September 2019. The main changes were the introduction of the first home withdrawal.

No transactions providing for related party benefits (as contemplated by section 172(1) of the FMCA) to be given from the Plan were entered into during the year ended 31 March 2020 on anything other than arm's-length terms.

During the year 48 Plan participants made a withdrawal that was permitted under the FMCA and the trust deed, and the grounds on which those withdrawals were made were as follows:

The Trustee confirms that for the year ended 31 March 2020 all contributions required to be made to the Plan in accordance with the terms of the trust deed were made.

The Trustee confirms that:

- 1. All the benefits required to be paid from the Plan in accordance with the terms of the trust deed have been paid.
- 2. The market value of the property of the Plan as at 31 March 2020 equalled the total value of benefits that would have been payable had all members of the Plan ceased to be members at that date and had provision been made for the continued payment of all benefits being paid to members as at that date.

As noted earlier in this Annual Report:

- the before-tax investment return (after investment expenses but before all other expenses and insurance costs) for the Balanced Fund for the year ended 31 March 2020 was -4.6%;
- this gross return will have been -4.5% at a PIR of 28% and -4.5% at a PIR of 17.5%;
- the before-tax investment return (after investment expenses but before all other expenses and insurance costs) for the Conservative Fund for the year ended 31 March 2020 was +1.9%; and
- this gross return will have been +1.1% at a PIR of 28% and +1.4% at a PIR of 17.5%;

but due to the complexity of those other expenses and insurance costs, and the tax allocation process, it is not possible to advise in this Annual Report the crediting rate or rates applied to members' balances after expenses, costs and tax (as that percentage rate differs for each individual member).

Changes to Persons Involved in the Plan

Ports Retirement Trustee Limited is the Trustee of the Plan. The Directors of the Trustee, act as manager of the Plan and custodian of the Plan's property.

There was one change during the year to the directors, David Stevens resigned as Chairman of the Directors effective 29 January 2020.

There were no other changes to the administration manager, any investment manager, the securities registrar or the auditor of the Plan. Sovereign Insurance changed its name to AIA Insurance.

There were no changes in the control of the Trustee during the year ended 31 March 2020.

How to Find Further Information

The following information is available electronically (and free of charge) on the Disclose Register at companiesoffice.govt.nz/disclose:

Expenses	(0.5)	(0.6)	(0.5)	(0.5)	(0.5)
Taxation	0.1	(0.5)	(0.7)	(0.8)	(0.4)
Investment income	(3.4)	5.1	6.5	6.6	4.0
Other income	0.1	0.1	0.0	0.1	0.3
Fund end of year	74.5	82.0	81.6	81.0	81.0

Activities in the last five years are summarised in the following table.

Over the year ended 31 March 2020, total members' balances reduced to \$74.522 million, from \$81.978 million in the prior year.

The main reasons that the value of the Plan's assets reduced, as well as there being benefit payments of \$8.5 million and contributions of only \$4.7 million, was that the Plan had gross investment income loss (after investment expenses but before all other expenses, insurance costs and tax) of \$3.4 million.

Wills and Your Nominated Beneficiary

Issues relating to wills and nominated beneficiaries remain of vital importance to members.

The question most often asked about a will is 'Do I need one?'. The answer, because you are going to die at some time, is 'Yes' - otherwise you will create difficulties for those you care about.

The Plan provides a death benefit which has to be paid out. But it is the Trustee who is charged with correctly paying out that benefit. The Trustee has a broad discretion as to how to distribute the benefit and may pay it to one or more of a range of potential recipients including (among others) anyone whose name and details you have notified to us in writing, your spouse, your children, your dependants or your estate – the point is that the Trustee has to decide.

So you need to make sure that the Trustee has good information to help it make an appropriate decision about who should receive the benefit. There are two things that you should do:

- firstly, keep your Plan nominated beneficiary details up to date, and
- secondly, make a will, as the will directs how assets in (or paid to) your estate must be distributed.
- Ideally your will would state that the funds from your Ports Retirement Plan should be paid directly to your Estate/ or your Wife/Husband/children as per your named beneficiary(ies).

If you do not have a will, the Court may appoint an administrator to manage your estate, which takes time and may not be someone you would have chosen.

Then the assets in your estate (which may include some or all of your death benefit from the Plan, if the Trustee makes a payment to your estate) are distributed according to the Administration Act, which may not be what you would have wanted.

Another way of looking at this is to know that if you have advised the Trustee of your nominated beneficiaries and if you have made a will, you help make the financial consequences of your death much easier for your loved ones.

Conclusion

Whilst it is disappointing to declare a negative return for the year ended 31 March 2020, the Coronavirus pandemic has resulted in the most serious economic conditions since the Great Depression. By maintaining our long-term investment strategy, we have been rewarded with strong investment performance in the first two months of the new financial year, but significant risks remain and high levels of volatility can be expected throughout the next twelve months.

David Stevens resigned as Chairman of the Plan on 29 January 2020 due to ill health. David was appointed Chairman of Trustees in 1994. The Directors wish to record their appreciation and thanks to David for his astute chairmanship over more than 25 years. David was the driver of many changes to the Plan over the years, including processes to comply with the Financial Markets Conduct Act 2013. We wish David well for the future.

I also record my thanks for the valuable support and contribution to the Plan made by my fellow Directors. The contribution made by the Rail & Maritime Transport Union and the staff of Melville Jessup Weaver is also acknowledged.

PAUL DRUMMOND

CHAIRPERSON
